

## U.S. EPA Brownfields Grant Quarterly Progress Report

**Grantee:** Greene County Industrial Development Authority

**Type of EPA Grant and Grant Number:** Assessment Grant Hazardous Substances / Petroleum Products #96359501

**Reporting Period:** FY20 Quarter 3, April 1 – June 30, 2020

**Date Submitted:** July 16, 2020

**Submitted To:**

Stephanie Branche, Project Officer  
U.S. Environmental Protection Agency, Region III  
1650 Arch Street (3LD50)  
Philadelphia, PA 19103 – 2029  
(p) 215-814-5556 (e-mail) [branche.stephanie@epa.gov](mailto:branche.stephanie@epa.gov)

### Quarterly Summary

**Task 1 – Programmatic Costs**

The GCIDA has moved funding from the Personnel and Travel budget items to Contractual in order to utilize more of the funding for the much-needed brownfields assessment work. A total of \$12,060 was moved under the Hazardous Substances budget and a total of \$7,000 was moved under the Petroleum Products budget. This amount is below the 10% threshold and the US EPA Project Officer was notified.

**Task 2 – Community Outreach**

The Greene County Brownfield Redevelopment Advisory Committee hosted a public meeting on June 24, 2020. The meeting provided an update to the public as to the current status of the US EPA Brownfields Grant Program; opened the floor to the attendees to identify potential sites to add to the inventory; and provide information on next steps to moving sites into active assessments. The next GC-BRAC meeting is scheduled for September 27, 2020.

**Task 3 – Site Inventory and Selection**

The Greene County Industrial Development Authority personnel as well as the selected qualified environmental consultant, AMO Environmental Decisions, toured potential site locations provided by the public on June 24, 2020. Fourteen potential sites were identified throughout the County. The GCIDA, in conjunction with the selected consultant, are currently working on contacting the site owners and preparing the Property Approval Questionnaires for submission to the US EPA.

**Task 4 – Site Assessments**

The Greene County Industrial Development Authority have identified fourteen potential sites for assessment activities. The GCIDA is actively working on contacting site owners for site access.

#### Task 5 – Remedial Planning and Design

No activity has been initiated under this task during this quarter.

### **Outputs and Outcomes**

The Greene County IDA re-issued the Request for Proposals and selected AMO Environmental Decisions as the most qualified environmental consultant. With the new highly qualified consultant, all delinquent reporting has been completed, public outreach has been initiated, and 14 sites are in the process of procuring site access for assessment activities.
